# History of Herceg Novi

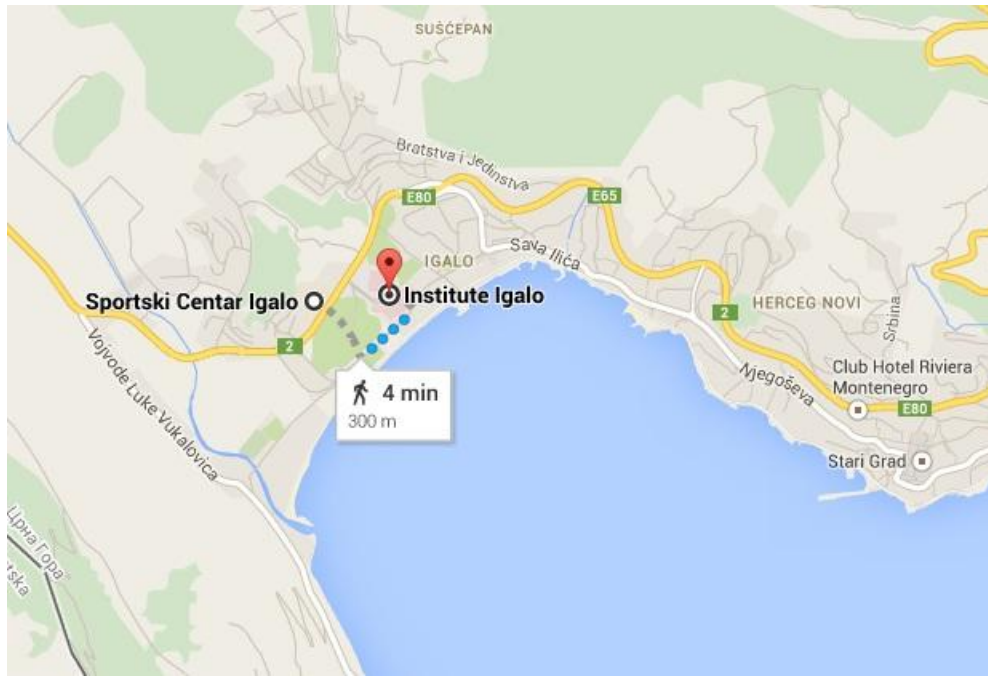

The city has a rich history. It was founded as a fortress in 1382 by Bosnian king Tvrtko. According to some stories it dates back to the Roman age, as a fishing village.

Today Herceg Novi is a major Montenegro tourist destination.

It is well known as a spa and health center. Nearby Igalo has an abundance of healing sea mud called "igaljsko blato" (Igalo mud) and mineral water springs called "igaljske slatine" (Igalo water springs).
